Applied and Theoretical Electromagnetics

- V. Arnautovski-Toševa, Y. Rousset, K.E. Khamlichi Drissi, L. Grčev*
Radiated EMI from Power Converters.....117
- M. Rančić, P. Rančić*
Field Pattern of the Vertical Dipole Antenna above a Lossy Half-Space.....125
- T. Randelović, J. Joković, B. Milanović*
Modelling of Microwave Applicators with and Excitation
through the Waveguide Using TLM Method.....137
- M. Milutinov, N. Pekarić-Nadž*
Shielding Effect of Non-Ferrous
Metallic Plates in Vicinity of Three Phase Conductors.....147
- Z. Kolondzovski, L. Petkovska*
Determination of a Synchronous Generator Characteristics
via Finite Element Analysis.....157
- N. Cvetković, P.D. Rančić*
The Point Ground Electrode in Vicinity of the Semi-Spherical Inhomogeneity.....163
- Z. Cvetković, S. Aleksić, B. Nikolić*
Response Analysis on Nonuniform Transmission Line.....173
- M. Greconici, C. Blaj, B. Nicoarã*
The Numeric Evaluation of the Magnetic Field Produced
by a Rotor with Alternating Poles.....181
